Harvard University Coliseum, Cambridge MA Historical Restoration and Structural Stabilization

DESCRIPTION:

CSI was awarded the historical restoration and structural stabilization (mock up phase) of the world renowned Harvard Coliseum.

Construction of the landmark Coliseum began in 1903 and the design was modeled after the great coliseum in Athens, Greece.

CSI's goal was to compile a set of various strategies and techniques in order to preserve and restore the coliseum to its original condition. This goal was achieved and the path to a complete future renovation of the entire coliseum has been carefully outlined.

OWNER: Harvard University
