John W. Weeks House - Newton, MA Multi-Service Historical Restoration

OWNER: Newton Community Development Foundation

ENGINEER: Gale Associates

DATE COMPLETED: 2008

DESCRIPTION:

Contracting Specialists completed the exterior masonry restoration of The John W. Weeks House (listed on the National Register of Historic Places) in Newton, Massachusetts.

The project was performed for Newton Community Development Foundation (NCDF) and designed by Gale Associates.

The million dollar exterior renovation of the gothic-revival former junior high school consisted of cast stone replacement, cast stone patching, brick masonry re-construction and re-pointing, crack injection and masonry coatings.

In addition, it included new intricate copper molded cap flashings and copper roofs.

During construction the NCDF was able to maintain full operations with its elderly occupants as CSI restored the exterior with minimal disruptions to their everyday activities.

The project progressed on schedule and on budget, even with the additional challenges encountered during the construction process.

Since 1996, **Contracting Specialists Incorporated** has steadily emerged as a leader in specialty construction, providing clients with proven and innovative solutions for concrete restoration, masonry restoration and waterproofing. Visit www.contractingspecialists.com
